PROFESSIONAL SUMMARY

Computer Science graduate and MERN stack developer with three internships and two full-stack projects. Skilled in React.js, Node.js, Express.js, MongoDB, and REST APIs, with working knowledge of AWS, Docker, and CI/CD. Seeking an entry-level software engineer role to build reliable, user-focused web applications.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, SQL
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Responsive Web Design, React Hooks
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, Mongoose, MySQL
- **Tools:** Git, GitHub, Postman, VS Code, Docker, AWS, CI/CD

EDUCATION

B.Tech, Computer Science and Engineering 2022 – 2026
Narasaraopeta Engineering College | CGPA: 8.3/10

EXPERIENCE

Development Intern – Internship 6.0 (B2) Sep 2025 – Nov 2025
Infosys Springboard | Remote

- Contributed to a **Civic Issue Reporting & Tracking Application** for registering and tracking civic complaints.
- Designed responsive UI screens and developed reusable **React.js** components for the application frontend.
- Contributed to frontend application workflows and integration with project APIs and data requirements.

Front-End Development Intern Jul 2025 – Aug 2025
InLighnX Global Pvt. Ltd. | Remote

- Developed a responsive portfolio website with dark/light mode, smooth scrolling, project showcase, contact form, and Google Maps integration, hosted on GitHub Pages.
- Built a responsive To-Do List application and an Interactive Quiz application with task management, real-time scoring, and restart functionality.

AWS Cloud & DevOps Intern Dec 2025
Datavalley India Pvt. Ltd. | Remote

- Selected for an internship focused on **AWS Cloud & DevOps**, gaining practical exposure to cloud technologies, containerization, and deployment workflows.

PROJECTS

Muzic – Music Streaming Platform
GitHub | Live Demo

- Developed and deployed a full-stack music streaming application with the **MERN stack**, using responsive **React.js** interfaces and reusable components.
- Implemented **JWT authentication, protected routes**, and user-specific features including music playback, search, and music collections.
- Built album and artist management features backed by **MongoDB**.
- Designed and integrated **RESTful APIs** with **Express.js** and MongoDB for CRUD operations, and tested endpoints using **Postman**.

Enterprise CMS & Dynamic Content Platform
GitHub | Public Demo | Admin Demo

- Built a full-stack content management platform with a decoupled architecture: a separate **Admin CMS**, **Public Web Application**, and **Express REST API** service.
- Developed the frontends with **React.js** and **Redux Toolkit**, including dynamic content block rendering for managing and displaying website content.
- Implemented **JWT authentication** and CRUD APIs using **Node.js, Express.js, and MongoDB/Mongoose**.
- Tested API endpoints with **Postman** and ran the services in containers using **Docker and Docker Compose**.

CERTIFICATIONS

- **CCBP Intensive – Full Stack Development with MERN** | NxtWave, 2026
- **NxtWave (CCBP 4.0 Intensive), 2026:** React JS, JavaScript Essentials, Node JS, Introduction to Databases
- **Full Stack Web Development – Skill Up** | GeeksforGeeks & Nation SkillUp
- **TypeScript** | Infosys Springboard, 2025
- **ExpressJS Essential Training** | Infosys Navigate Your Next, 2024
- **MongoDB** | Infosys Springboard, 2024
- **SQL (Basic)** | HackerRank, 2024
